PROJECTS

Portfolio (www.brandonteague.me)

It is a portfolio of all of projects I have worked on.

React | LESS | NodeJS | JEST

- Built from the ground up by myself
- I used react components to render elements onto the DOM

Pintreach (<https://frontend.pintreach.now.sh/>)

A simple web page that allows users to share interesting articles.

React | Redux | NodeJS

- We had 4 days to work on it. 2 front end, 1 backend
- Solely responsible for the frontend of the community page
- I used react to map through articles on the backend and display them as components

EXPERIENCE

Commscope, Claremont, NC — Senior Support Associate

Feb. 2018 - July 2018

Managed inventory, made sure production had the materials they needed, and moved materials around using forklift.

BMW Manufacturing, Greer, SC — LSA/Dock Controller

July 2016 - Aug. 2017

Managed inventory using SAP, made sure production had the materials they needed, and moved materials around using forklift, moved trucks in and out of dock doors, and performed cycle counts to ensure inventory accuracy.

Target Distribution, Newton, NC — Warehouse Worker

July 2012 - July 2016

Worked as a team to load and unload trucks, scan materials in and out of inventory, and move materials around warehouse using forklift.

Fastsigns, Charlotte, NC — Graphic Designer

Sept. 2011 - March 2012

Designed. Printed and installed signage, banners, and vehicle graphics.
